

How to manage cookies in Internet Explorer 9

Cookies are small text files that websites put on your computer to store information about you and your preferences. Cookies can enrich your browsing experience by allowing websites to learn your preferences or allowing you to avoid signing in every time you visit certain sites. However, some cookies might put your privacy at risk by tracking sites that you visit.

You can delete cookies stored on your computer at any time. You can also change your privacy settings to block websites from storing cookies on your computer.

To delete cookies

Open Internet Explorer by clicking the **Start** button . In the search box, type **Internet Explorer**, and then, in the list of results, click **Internet Explorer**.

Click the **Tools** button , point to **Safety**, and then click **Delete browsing history**.

Select the **Cookies** check box, and then click **Delete**.

Note

Deleting all cookies might prevent some webpages from displaying correctly.
